PRESIDENT STANDS BY HIS GUNS IN THE BROWNSVILLE INCIDENT.

**Sends Special Message In His Recent Inquiry to Senate
With All the Evidence Collected.**

WRONG ONLY IN ONE RESPECT.

Reveals That Part of His Order Dismissing Colored Troops Prohibiting Them Entering Civil Service of the Government—Was Wrong, He Says

Publishers Press Telegram
WASHINGTON, Jan. 14.—In a special message President Roosevelt this afternoon transmitted to the Senate the results of his investigation into the Brownsville incident. The message and evidence accompanying covers 240 pages and in the President's opinion it thoroughly substantiates the charge that the shooting up of the team was done by soldiers of the 25th infantry and justifies his action in dismissing the three companies. In the connection the President literally delivered the goods for along with the message he sent to the Senate the empty Springfield shells, clips and bullets gathered on the scene of the shooting. A noteworthy feature in the President's frank admission in the message is that he erred in barring discharged soldiers from future civil employment in the government. Having found that such action lacked validity, he announces that he has revoked that portion of the order of discharge.

DRUNKEN BRAWL.

**Steve Tote of Jacobs Creek Was Perhaps
Fatally Stabbed in Drinking Bout
on Sunday.**

Steve Tote, a foreigner of Jacobs Creek, was stabbed during a drunken brawl there last night. He was brought to the hospital this morning on his No. 18 and is in a very serious condition. Two deep cuts in the left breast may prove fatal to him. One is a couple of inches above the heart and is believed to have penetrated the lung. The other is near the shoulder. Dr. Fardin of Jacobs Creek rendered medical assistance to the injured man last night, owing to the fact that No. 48 was off schedule this morning. A doctor was called to the hospital to the situation here. This may have a deterrent effect upon him. The name of his assailant is unknown. A celebration had been going on at one of the foreigners' houses when the fight started. There were a number of men mixed up in it. Tote took an active part until he got a crack on the head with a pick handle. He got up and was put down again by a knife thrust in his breast. He didn't know which one of his antagonists stabbed him or at least has not yet given his name. It is alleged that Tote's assailant stabbed him a second time while he was lying on the floor.

BLIZZARD RAGES.

**Conditions in the Northwest and Canada
Are More Serious Than for Nearly
Twenty Years.**

Publishers Press Telegram
ST. PAUL, Minn., Jan. 14.—Canada, North Dakota and Montana are in the grasp of a cold wave of great intensity following the heavy snow storm that has been raging throughout that district. At 8 o'clock this morning the thermometer readings at stations in the Canadian Northwest showed temperatures ranging from 14 below to 22 below at Battleford and Swift Current. The intense cold which is expected to remain a few days at least, will materially add to the sufferings of communities experiencing a fuel famine.

Unusually heavy snow, especially in the northern part of Montana and the extremely cold weather is stopping trains, endangering lives of cattle, sheep and even menacing human life in the remote districts. Old stock men say the outlook is more serious for their herds than at any time since the memorable winter of 1887 and 1888.

Drunks Are Barred
The Pennsylvania railroad has received an order forbidding drunken persons on its trains under the influence of intoxicants to enter its passenger trains.

Will Enlarge Brewery.
Owing to increased business the Jeannette brewery will be enlarged to the coming spring.

STRANGERS ARRESTED

All of Scottdale School Children Must Show That They Are Vaccinated.

THE O. M. FLEMING PLACE SOLD

Job L. Graft Gets Fine Property Near His Home—Two Buggies Were Sufferers on Saturday, When One Went Over Bridge and Horse Was Scared—Big Crowds Out Pay Day.

SCOTSDALE, Jan. 14.—There was severe and painstaking campaign waged by the teachers of the Scottdale schools last week in getting every child accounted for with a vaccination certificate. The rigorous measures of the State Department of Health are such that it will be ill with those who do not comply with the enactments made for the public health and this is one of them, that all the children in the schools be vaccinated. Many children had lost their certificates and the records have been kept in such manner that it was the quickest way to solve the question by having a duplicate issued by the physician who made the vaccination. Others had to have the operation performed.

There were two runoffs on Saturday in which Scottdale men had narrow escapes from being injured. Chas. L. Graft and his son, Elbert, were driving home from the Old Meadow Mill, and in passing the roadside barn of C. D. Hixon, a forkful of manure being suddenly emitted from a small door in the side of the stable caused the horse they were driving to give such a tremendous lunge that the top and seat of the buggy broke off and both men were thrown out and somewhat scratched. Saturday night was dark night, dark as Egypt, some boys who have traveled as far as Lyons, this county, and William Fell, who drove off the unprotected bridge of the White school house. He was thrown out, shaken up a good deal, and the horse hurried for home.

Rev. Archibald Auld preached Sunday afternoon at the Jacobus Creek Methodist Episcopal Church on account of the revival meetings he is holding at Wesley Chapel, thus causing the time of preaching at the Creek to be changed from evening to afternoon.

Jacob L. Graft, a well known young mill worker, has bought the little farm belonging to O. M. Fleming, a mile west of town, Mr. Fleming having moved to Scottdale. Mr. Graft thus has two fine places near together. Oscar Hite is living in the Fleming place.

Frederick Johnston came up from Morven Station to hear Rev. William C. Weaver preach at the First Methodist Episcopal Church, Sunday morning.

C. L. Ray, who is at the head of the Y. M. C. A. work in the bituminous coal region, was down from Greensburg to speak before the local Association Sunday afternoon.

William Stull has bought a lot from the Bower's plan in West Scottdale and is breaking ground for a residence there. That section will soon be built up solidly out to the road into G. W. Porter's.

Dr. Solomon Palmer, the veterinarian from near Grandview Church, was in town Saturday.

Mrs. Mary A. Porter, who lives with her children, Mr. and Mrs. John Keefer, of near Wesley Chapel, celebrated her 77th birthday on Sunday. There gathered there Mr. and Mrs. Mode Porter of Dawson; Mr. and Mrs. S. E. Porter of Vanadium; and their families, and Mrs. Chris Eber of Alverton. They all enjoyed a sumptuous dinner.

Harvey Nickalaw of Summit was a visitor in town Saturday.

Saturday was pay day and a pleasant evening and a very large number of people were out on the streets in the afternoon and evening.

"What Happened to Jones" takes place at the River Opera House on Tuesday evening. It comes highly recommended.

Miss Florence Anderson spent Sunday with her aunt, Mrs. W. D. Anderson of New Haven.

Mrs. C. L. Dyer of Alverton was a visitor in town Saturday.

Mon. E. P. Wedell, returned to Harrisburg today. Mon. Berkey H. Boyd also goes east today. They are all returning to the Capital on account of the reopening of the Legislature of which Messrs. Boyd and Wedell are members.

JOHN CORRIGAN'S FUNERAL.

Requiem High Mass was Celebrated Sunday Morning.

The funeral services of the late John J. Corrigan was held from his late residence, Cummings avenue, Sunday morning at 7:30 o'clock. Requiem High Mass was celebrated at the immaculate Conception Church at 8 o'clock, Rev. Father J. T. Burns being the celebrant. Interment in St. Joseph's Cemetery.

STATE REPORT

On Railways, Public Instruction and Fisheries Go to Legislature.

HARRISBURG, Jan. 14.—A summary of the reports of the leading steam railway corporations operating in Pennsylvania for the fiscal year ending June 30, 1906, to the State House of Railways, show that all these companies did a prosperous business and are on a good sound financial basis. While there are 168 steam railroad corporations in Pennsylvania that make operating reports to this bureau, and 157 steam railroad corporations whose lines are operated by other corporations, which also make reports to the Bureau, there are comparatively few which may be denominated trunk lines.

Superintendent of Public Instruction Schaeffer, Secretary of the College and University Council, will send his sixth biennial report on higher education in Pennsylvania to the Legislature this evening. During the last 10 years the number of undergraduates in the colleges has increased from 6,500 to 16,421, and the number of women at colleges, from 1,202 to 5,147. The report submits figures to show that the public schools must rely upon the smaller colleges for the supply of teacher in-so-far as college bred men and women can be secured to teach in the public schools.

The report states that in many cases a cry is heard for the emancipation of the High School from the domination of the college and that it is to be hoped the modern method of teaching history will find its way from the college into the public schools. During the 10 years of its existence this Council has sought to prevent the cheapening of academic degrees and the issue of permanent certificates to teachers on the basis of graduation from schools with inferior standards of admission and graduation.

State Fish Commissioner Mehan's report for the year 1906 will be sent to Governor Pennypacker tomorrow. The report shows the output of the hatcheries last year was 397,631,790 and that by systematic field work 250,000,000 eggs of pickerel and yellow perch were saved.

P. O. M. UMPIRES.

Dunbar Man Among President Guy's Staff for Coming Season.

President R. R. Guy of the P. O. M. baseball League this morning announced his staff of umpires for the coming season. Among the list is John Maloy of Dunbar, who last season umpired in independent games. Maloy has had considerable experience. He umpired a few years ago in the State League of Alabama. He is a former first baseman, is a six footer and has a competent knowledge of the game. All the umpires in the P. O. M. for next season are six footers and 200 pounds, except John Mullin, who is a little fellow. President Guy is going to have men who can take care of themselves no matter what happens and the policy may have a softening effect on some of the belligerent players in the P. O. M.

The other umpires announced for the P. O. M. are Thomas McNamara, last season an umpire in the Western Association; John Mullin, the only old man retained; William Swink, a veteran player and umpire, and Robert Black, last season in the Virginia League. Swink will be well remembered in this section. He caught the old Scottdale grays when Jack Menefee and Cob Milbou were stars in independent baseball.

GILBERT SOLD.

Giant's Second Baseman Goes to the Newark Club.

NEW YORK, Jan. 14.—[Special.]—"Billy" Gilbert, for several years star second baseman of the Giants, has been sold to the Newark Club of the Eastern League, and will not appear in a New York uniform next season. Neither the Newark Club nor the New York management would say what was paid for Gilbert. Every club in the National League waived claim to Gilbert, that is they did not care for his services, and New York turned him over to the minor leaguers.

Gilbert came to New York with McGraw from Baltimore and has done great work for the Giants. Tom Corcoran will take his place at second.

PENNSYLVANIA FIRST

In the Manufacture of Glass for the Year 1906.

WASHINGTON, Jan. 14.—A report issued by the Census Bureau on the manufacture of glass and clay products in the United States for 1906, shows that 21 States are represented in the production of glass, and returns as reported from about 400 establishments, with a total capital of \$39,380,151, show manufactured products to the value of \$79,607,998. These concerns employ 63,955 employees, who were paid \$37,288,148 in wages, and consumed materials valued at \$26,145,522.

Pennsylvania took the lead in the manufacture of glass, with 34.3 per cent. of the total value of products.

Boy Drowned at Monongahela. MONONGAHELA, Jan. 14.—As George Ranzini, 11 years old, stood on the river bank Sunday afternoon reaching for a stick with which he had been marking the stream's rise, the earth suddenly gave way beneath his feet and he was thrown into the water and drowned. The boy was a son of Gido Ranzini, a leading Italian resident.

Joseph Robbins, Sr., Badly Hurt. Joseph Robbins, Sr., of Robbins Station, father of ex-Congressman Edward E. Robbins of Greensburg, was kicked by a vicious cow Saturday and is in a critical condition.

TO TOUR THE WORLD.

Aloysius Coll to Start in February for a Journey Around the Globe.

DETAILS OF THE LONG TRIP.

Will Leave the Beaten Tourist Routes to Gather Stories from Interesting Places, Peoples and Things—Will Be Gone About Two Years.

There is a long trip ahead for Aloysius Coll. On Friday February 8, he will leave for New York, and the next morning will sail on the Kronprinz Luise, of the North German Lloyd Mediterranean dock, for Genoa, Italy. This will be the start of a journey which will include travel in four continents, and which, it is expected, will continue for two years, or more. Primarily, the trip is made for study and the acquisition of a wider view of the world, but he also goes under special commission of a number of the leading monthlies and weeklies of the country, in whose pages his wander stories will appear while away. He is not going abroad under any touring agency, nor has he outlined the definite course of his route, but has designed one in a general way. From Genoa, where he will land, he will follow the coast line through the beautiful Liguaria River as far south as Pisa, stopping at all the places of interest, and going inland for deeper insight into the country life of Northern Italy.

One trip will be made to the famous marble quarries of Carrara. From Pisa he will travel across Italy through Verona, Vicenza and Padua to Venice, thence to Florence, where he will be joined by an artist, who will accompany him through the balance of the tour in Italy, and probably into Africa. From Florence the journey will be southern through Bologna, Orvieto and Rome to Naples and all its environs, including the enchanting islands of Ischia and Capri. The trip through the southern provinces is not made by tourists, but that is the reason he will pay special attention to the lower provinces in the "hood" of the boot, including Calabria. Thence he will cross over the straits of Messina to Sicily, and from this island he will drop down into Africa, stopping at Malta. In Africa the first stopping place will be Tripoli, and from this country he will come all the way back to Gibraltar covering well the Barbary States of Tripoli, Tunis, Algeria and Morocco. If the hunter of the tour in Italy, and probably into Africa, he will drop down into Africa, stopping at Malta. In Africa the first stopping place will be Tripoli, and from this country he will come all the way back to Gibraltar covering well the Barbary States of Tripoli, Tunis, Algeria and Morocco. CARNEGIE ON WEALTH.

Steel King Would Impose Heavy Tax on Inheritance.

OPPOSES A LEVY ON INCOMES.

He Would Make the Public Hear When Millionaire Dies—Says Riches Come From Community and Most of It Should Be Returned.

Andrew Carnegie's view concerning the proper disposition of America's great fortunes attracted much attention at the recent meeting of the National Civic Federation in New York during a discussion of a national inheritance tax.

He believed that Gladstone, he said, had an income tax made a nation of liars. Men were like bees. They should not be interfered with while making the honey.

"My experience is," said he, "that I would as soon leave a curse to my boy as to leave him the slightest dollar." The subject of wealth distribution, he said, would not down. It was now obviously strangely unequal, and the poorer we discovered a sane method of distribution the better.

As to the income tax he said: "There is no tax so pernicious, not only from an economic, but from a moral point of view, because it is a tax that requires the struggling young business man, fearful whether the bank directors will pass his note for \$1,000 tomorrow, to explain all his private business to some man in the community who may himself be a bank director or who is connected with the banks. It penetrates business to the core, and the nation will never regret anything so much as attempting to collect a tax upon honest earnings."

To illustrate his argument in favor of the inheritance tax Mr. Carnegie drew a word picture of a farmer who, many years ago, gave to one son a farm on Manhattan Island, which eventually became city property and enabled his descendants to live without effort. Another son had received a farm farther up in Harlem, and his children were obliged to continue doing something to "justify the world in supporting them." As the generations came along these children became millionaires through the growth of the city.

"Who made that wealth?" asked Mr. Carnegie. "The community, the population, the people. Then you tell me wealth is sacred. I say the community was the lending partner that made that wealth. I am not in favor of touching the bee when it is making honey. Let the bee work. But when he passes away, then I say the silent partner, the community that made that wealth, should receive its dividend—a large portion."

"We will suppose there is another son. He settles in New York. He is a bright boy and he sees the railroads are essential to the future of this metropolis, and he embarks in the work. He consolidates these railroads. He is a useful man. He does the state some service. But he soon sees that, with the population growing, the traffic so increasing, he could pay dividends on his stock and issue more stock, and he goes on and on and buys up the stock, gets a large interest in it, and he becomes one of that class which no other nation has. He is indigent to America. Now he dies. His family all become millionaires."

"Who made that wealth? If New York had remained a village, if the western states had not developed, if the people of the United States had not increased in population and by their labors become well doing and did not wish to visit New York, did not wish to buy things in New York to ship back and forth, he would not have been a millionaire. There, again, wealth flows from the community. I think society makes a huge mistake if it ever interferes with an organizing man in his lifetime. As a rule a millionaire is not an extravagant man himself. The man who has made money can usually be trusted to keep it."

"Take another man, another brother, who has settled in Pittsburgh. He sees that coke and coal is there for smelting iron, and there (pointing to a man in the audience) is one of the men that did it very early in life, my partner, John Walker. Why, it was as plain as A B C that Pittsburgh was the place where you could make a ton of steel cheaper than anywhere else in the world, and that young man and other bright, intelligent young fellows went to Europe and saw what Great Britain was doing. Britain was always ahead in steel manufacture. They found a lack of raw materials, of everything, and they bought up ore mines on Lake Superior."

"This country's demand for steel increased. Now, who made the growth? The growth of the American public. That is what that wealth came from. And that is the partner in every enterprise where money is made honorable. And I say these men, when the time comes when they must die and lie down with their fathers, community falls in its duty and our legislators fall in their duty if they do not exact a tremendous share, progressive share—no idea of ever making his children paupers, no idea of interfering with his right to leave them a competence, but it is the enormous sum, those millions, which should really have a different name from property. When a man was a man of property in the old days it meant he had enough for himself and family to live well enough on, but now we are under changed conditions."

A MAN OF LETTERS.

Rare Brevity and Beauty of Lincoln's More Notable Addresses.

Nothing would have amazed Mr. Lincoln more than to hear himself called a man of letters, and yet it would be hard to find in all literature anything to equal the brevity and beauty of his addresses at Gettysburg or the lofty grandeur of his second inaugural in Europe his style has been called a model for the study and imitation of princes, while in our own country many of his phrases have already passed into the daily speech of mankind.

His gift of putting things simply and clearly was partly the habit of his own clear mind and partly the result of the training he gave himself in days of boyish poverty, when paper and ink were luxuries almost beyond his reach and the words he wished to set down must be the best words and the clearest and shortest to express the ideas and in view. This training of thought before expression, of knowing exactly what he wished to say before saying it, stood him in good stead all his life, but only the mind of a great man with a lofty soul and a poor's vision, one who had suffered deeply and felt keenly, who carried the burden of a nation on his heart, whose sympathies were as broad and whose kindness was as great as his moral purpose was strong and firm, could have written the deep, forceful, convincing words that fell from his pen in the later years of his life. It was the life he lived, the noble aim that impelled him, as well as the genius with which he was born, that made him one of the greatest writers of our time.—Helen Nicolay in St. Nicholas.

AN ODD DUEL.

It Introduced a Frenchman to the Possibilities of Baseball.

A Frenchman challenged an American to fight. The American, a husky six footer from Yale, who had pitched on the baseball team and stroked the crew, was loath to accept and took the matter as something of a joke. The count pressed his desire for satisfaction, and at last the son of old Eli consented to meet him, stipulating that he should choose his own weapons. Seconds were agreed upon, and the mode of combat chosen by the American was baseball at twenty paces. It was dangerously close range for a man who spent three years twirling inshoots and outdrops over a twelve inch plate and likely to be a pretty accurate shot with a baseball, but the Frenchman was game, and they met on the outskirts of the city at daybreak.

Each was to have three shots, and the count was the loss and the privilege of leading off. Perhaps he had never seen a baseball before, and at any rate, the man from Yale had no difficulty in dodging the adamant spheres which the son of Belle France sent sailing in his direction. Then the American opened fire. The first ball grazed the Frenchman's shoulder, the second lodged in the pit of his stomach and the third, an in-shoot, caught him full on the point of the chin. He went down and out and never challenged another American citizen.

THE BUTTE HILL.

Where Fortunes Were Made and Spent in a Day.

When Daly had acquired the property surrounding the Butte Hill, he opened up the hill. One must have a vivid imagination to picture to himself the growth of Butte from that time on during Marcus Daly's life. Fortunes were made and spent in a day. An army of men descended into the mines daily to strip them of their treasure, huge forests were despoiled of their timber to stull and shore up the excavations and protect the earth above, for these copper veins are often 100 feet wide. Immense smokestacks began to vomit their clouds of smoke from scores of furnaces scattered over the hill; the moan and clank of huge pumps could be heard in the depths forcing the water to the surface; the pound of hammers and the steady impact of drills sounded everywhere, while the earth trembled and belched with distant underground explosions. Great hollows, like cathedral caves, were scooped out, where the treasure and lava in this rock ribbed earth, horses and men were blindfolded and lowered into the mines—where their hides, like the grey hairs of the old miners, soon took on the greenish color of the copper which saturates everything below the surface. The Butte Hill soon became a veritable underground city.—C. F. Connolly in McClure's Magazine.

A SEA GATE MEMORIAL.

President Butler's Suggestion For a Robert Fulton Monument.

The Robert Fulton monument may take the form of a sea gate, says the New York Times. President Nicholas Murray Butler of Columbia university, who is a member of the monument association, has declared himself in favor of this plan, and the committee in charge is preparing to discuss it. Richard DeLaford, president of the National Park bank and treasurer of the monument association, made this announcement recently:

"Dr. Butler seems to be of the opinion that it would be a very good thing if possible to establish a sea gate in connection with the monument and tomb, where distinguished foreign visitors coming by sea could land in the upper part of New York and not be compelled to traverse the lower part of the congested business district. This sea gate could also be used by the different yacht clubs and steamers paying a small amount for the privilege, which sum would go to make up the fund to insure the monument proper attention."

Mr. DeLaford also announced that Governor Elect Hughes had consented to act on the site committee of the association.

PENSION BILL PASSED.

Measure Gives Civil and Mexican War Veterans \$12 to \$20 a Month.

WASHINGTON, Jan. 14.—The Senate passed Senator McCumber's pension bill last week without division after amending it to make it apply to survivors of the Mexican War as well as those of the Civil War, and to prohibit pension attorneys from receiving fees for securing pensions under the bill. The words in the bill "War of the Rebellion" were changed to "Civil War" after some discussion as to what the war of '61 to '64 really was, Southern members contending that it was a "war between the States."

The bill grants a pension of \$12 a month to survivors of the Civil and Mexican Wars who have reached the age of 62, \$15 to those who are 70 and \$20 to those who are 75 or over. Senator McCumber estimates that if the bill becomes a law it will increase the pension expenditures about \$8,000,000 annually, while the Commissioner of Pensions estimates the increase at \$10,000,000 to \$12,000,000 a year.

The House broke all records on Friday for pension legislation passing 628 bills in one hour and 35 minutes. The highest previous record was 535 bills in a day.

WANT A RECEIVER.

Application Has Been Made For One for Old Colony Coke Co.

A bill in equity has been filed in the Allegheny county courts for a receiver for the Old Colony Coal & Coke Company, and the Continental Land Company, both of which concerns are located in Ligonsport township, Westmoreland county.

John J. Best and W. J. Flehner, stockholders, are the applicants. They allege that an attempt is being made to divert the stocks and bonds of the company to the extent of \$212,000 to certain officers and directors. The company is capitalized at \$1,250,000.

AN EQUITY SUIT OVER COAL DEAL.

J. B. Adams and O. P. Markle
Claim G. L. Hibbs Violated Agreement.

MRS. STAUB FILES ANSWER

To Enter Suit Against Her by Joseph H. Anderson—More Suits Against Dr. S. S. Stahl Over Gold Mine Stock—Broad of Trade Chartered.

UNIONTOWN, Jan. 14.—Claiming that George L. Hibbs took an unfair advantage of them and broke his agreement, J. B. Adams and O. P. Markle, both of Uniontown, have filed a bill in equity to compel him to make an accounting of his finances in a Green county coal deal. Adams claims that he made an agreement with W. F. Throckmorton of Waynesburg for options on 3,198 of coal in Adams township, Green county, and that he interested Markle and Hibbs in the matter. The three men formed an agreement whereby they were to share equally in the profits of the deal. This deal happened back in 1929. Later Adams bought another 800 acres adjoining the first tract. During the latter part of April, 1932, the three men made a deal with R. D. Warman, John E. Jones and J. C. Work for the sale of 2,400 acres of the coal at \$21 an acre. Later 600 acres more were sold to the same parties. Markle now claims that Hibbs, in violation of his agreement with them, got on the inside with Warman, Jones and Work and cleared up about \$4,000 more than his partners. An accounting is asked.

Judge Umbel has approved the application for incorporating the Connellsville and New Haven Board of Trade. As soon as the papers are recorded the subscribers will have the authority to proceed along the lines they have proposed.

Lillian E. Staub has filed an answer to the bill in equity brought against her by Joseph H. Anderson relative to the purchase of the Workman farm in Bullskin township. She admits an indebtedness of \$1,400 on the farm, and claims to have made demands for a deed, which is refused. She denies that Anderson has any claim on the farm or is entitled to any partition proceedings.

Elizabeth B. Collins and Postmaster Clark Collins, both of Connellsville, have filed in all four suits against Dr. S. S. Stahl each for \$155. These suits grew out of Dr. Stahl's mining venture of some years ago. The plaintiffs aver that upon the defendant's representations they were induced to purchase stock in the Western Pennsylvania Gold Mining Company and the Eldorado Gold Mining Company of California.

Frank Louden of near here was arrested by Constable Charles M. Fee this morning charged with embezzlement. Louden was employed as a collector by Wholesale F. T. Adams and is alleged to have embezzled \$50.

The charter papers of the Ada Coke Company have been filed here. J. A. Strickler, McClelland Leonard, John Todd, Daniel Sturgeon, R. W. Dawson and others are interested. The capital stock of the company amounts to \$70,000 and a quantity of coal is owned in the lower end of the county.

Bertha L. Fuller of Uniontown has filed a bill in divorce against her husband, Harry R. Fuller, charging cruelty and ill treatment. They were married in Cincinnati in 1902 and lived together in Uniontown until last October when she alleges that she was compelled to leave him.

GREATEST IN HISTORY.

In Industrial Activity Says Department of Commerce.

WASHINGTON, Jan. 14.—That the year just brought to close was a banner one in the history of the United States industrial activity, for outdistancing any previous record, is the deduction of statistical experts of the Bureau of Statistics of the Department of Commerce and Labor.

The value of manufacturers' raw materials imported in the 11 months of the past year was \$402,000,000, against \$370,000,000 in the corresponding months of 1934, and the value of manufactures for further use in manufacturing was \$223,000,000, against \$194,000,000 in a like period in the preceding year, and of manufactures ready for consumption \$438,000,000, against \$391,000,000 in the corresponding period of 1934, indicating that the total value of manufactures of all kinds exported during the year will exceed \$700,000,000.

BANNER YEAR.

For Coal Production in 1934 in Westmoreland County.

IRVING, Jan. 14.—The year just closed was the banner one in coal production in Westmoreland county, the output being approximately 26,000,000 tons. This is an increase of 8,000,000 tons over 1933, when it was thought the high water mark had been reached. Producers say the output would have been at least 1,500,000 tons more if the railroads had been able to handle the coal. Strikes, too, last spring curtailed the output.

Among the big producers the Keystone Coal & Coke Company showed an increase of 800,000 tons, the Westmoreland Coal Company 360,000 tons, the Penn Gas Coal Company 300,000, the Major Gas Coal Company 125,000, the Ocean Coal Company 100,000 and the United Coal Company 50,000.

The outlook this year is good for an output that some operators state will reach fully 30,000 tons. New mines, it is expected, will add 2,000,000 tons to last year's figures. Railroad operators say there will be no car shortage. The output of coke for 1934 will show an increase of over 1,000,000 tons on account of about 500 more ovens being in operation.

HIGH WATER

Does Much Damage in the Country Districts and the Rain Still Continues.

The rain continues. For the past several days it has fallen without ceasing, except during brief and infrequent intervals. The river reached its highest stage Saturday night, after which it began to fall. The hard rain of Sunday started it to rise again. During the night distant rumblings of thunder were heard and lightning was quite distinct. Thunder storms at this time of the year are unusual.

In the country districts much damage has been done by the washing of small bridges. Rural mail carriers are having a hard time making their deliveries.

A telegram from Pittsburgh says: "About the only inconvenience experienced about this city thus far on account of high water is closing nearly all mines along the Monongahela river that ship by water. River now receding and operations may resume by Wednesday. Nearly two thousand men are temporarily idle."

TAX ARRESTS.

Collector George B. Brown Compelled to Resort to Law to Close His Duplicate.

From The Sunday Courier.

Hardly a day passes now but that someone gets "plucked" for their taxes. Tax Collector George B. Brown has issued a large number of commitments and the office is bringing in the victims. Some of the commitments were issued months ago, but were allowed to go along on the promise of the taxpayer that he would straighten matters. Promises have worn out and now it's pay or go to jail.

Some very funny situations develop out of the arrests and there's a great scramble to keep out of jail after the arrest is made. Last week John Lauther, a negro, was arrested after he had sidled up to Scotland. John was well known about town and thought that surely someone would come to his assistance. After spending four days in the lockup the officer was told to deposit him to Uniontown. Upon arriving there he met a friend that knew him and the taxes were paid. Although he didn't spend any time in jail, it was a close shave for John and it is altogether probable that he will not depend upon friendship to get him out of the jug next time, because it's a mighty unhandy place to see your friends.

SELLS HIS RESIDENCE.

W. D. McGinnis Will Meet New Home

W. D. McGinnis of the Daily News has sold his residence on North Pittsburg street to Frank P. Welker for \$3,700. The deal was closed Saturday. Possession is to be given April 1, but Mr. McGinnis will probably remain until July, or until his new home on East Fayette street is completed.

Today Mr. McGinnis purchased a lot on Fayette street for \$1,000 and has plans made for a new residence. The contract will be let within the next 30 days.

Some days ago Burgess Soloson gave Patrick Riley of Massontown five days in the coop and a promise for being drunk. Pat was again pinched last night.

This morning the Burgess kept his promise and as a consequence Pat is now in the county jail at Uniontown, where he will remain for 30 days.

BIG MILEAGE ON WEST PENN.

Total... of 2,687,929 Miles
Reeled Off by Trolley Cars.

THEY RAN ON GOOD TIME.

Only 3.3 Per Cent. of Cars Arriving in Connellsville and Uniontown Were Behind Time in Spite of Change in Route and Schedule.

From The Sunday Courier.

For the year 1934 the West Penn. Railways Company has made a record in mileage and in running cars on time that is a credit to any trolley system in the country. The percentage of cars arriving on time during the year was 96.7, and this high average was made in spite of the fact that a new main line from Scotland to Greensburg was put in operation which necessitated a revision of the schedule. The total mileage for the year was 2,687,929. The banner division was the main line between Uniontown and Greensburg on which a mileage of 844,191 was made. The route making the smallest mileage was the McKeesport-Jenny Lind line, which only piled up 1,456 miles.

The West Penn. is making an enviable record. Not only is it one of the best advertised roads in the United States, but it is also the best managed. Schedule time is made under great difficulty, on many occasions. Last August the Centennial brought thousands of people into Connellsville, while at Uniontown the ball games required extra cars, which arrangements frequently threatened to pile up that end of the system for a while. On nights that big shows are given in Uniontown or Connellsville the crowds are enormous, while on Saturday nights lots of people are bailed on all divisions.

It is practically impossible to make an estimate on the number of persons hauled during the year. Some passengers pay one fare while others pay two, three or four, and sometimes eight and ten.

The total mileage of 2,687,929 is divided over the different routes as follows:

Olympia Park 2,133
McKeesport to Uniontown 1,142
McKeesport to Versailles 1,047
Jenny Lind 1,456
McKeesport to Greensburg 1,456
McKeesport to Brann Mawr 1,723
McKeesport to Duquesne 1,723
McKeesport to Harrisburg 1,723
McKeesport to Erie 1,723
McKeesport to Youngstown 1,723
McKeesport to Cleveland 1,723
McKeesport to Toledo 1,723
McKeesport to Detroit 1,723
McKeesport to Chicago 1,723

AN AGREEMENT

Reached by Baltimore & Ohio and Somerset Trolley Line Over Grade Crossings.

From The Sunday Courier.

The officials of the Baltimore & Ohio and the Maryland & Pennsylvania Street Railway Company have come to an agreement over the differences existing between them over right-of-way in Somerset county. A number of the officials of both roads met in Meyersdale this week and after a long conference it was announced that a settlement had been reached.

The trouble was caused on the crossing question, and it is understood that the street car company agreed to build overhead crossings, thus eliminating a great deal of danger that would be forever present with grade crossings.

The B. & O. officials present at the meeting were Robert Finney, General Superintendent of the Pittsburgh Division; H. H. Temple, Superintendent at New Castle; J. J. Driscoll, Superintendent, Connellsville Division; Frank Moore, Trainmaster Connellsville Division; Michael Foley, Roadmaster of Connellsville Division.

An Action That will Lend Added Interest to Our Eminently Successful January Clearance Sale.

Beginning Monday, the 14th, and continuing throughout the week, we will each morning place on sale ten special groups of merchandise at a price wholly inconsistent with its value. These specials will be designated by red cards. We will not advertise what these articles will be, but we tell you that each separate group of specials will be sold far below its worth and will form the highest example of bargain worth.

These specials will be sold below cost. We'll be frank with you and tell you that our one object in placing on sale each morning ten special bargains is to induce every person in Connellsville to visit this store during this great January sale.

That's why we are willing to loose money on these specials. That's why we don't tell you what they will be. Our object is to have you come and see.

These Specials Will be on Sale from 9 A. M. to 12 M. Each Day.

We limit the sale to three hours because of the extreme reductions. You must not lose sight of the fact that the entire establishment has been transformed into a great under-priced store and that this 10 day January Sale of ours holds more inducement to careful and economical purchasers than any we have ever previously conducted, and it is to be remembered that our clearances have been among the most successful of Fayette County.

This is the Greatest Clearance of Winter Apparel for Women We've Ever Had.

If you can appreciate what it means to go through this entire garment store and pick out all small lots, all single suits and coats, all odd garments that have collected during a season's selling and marking them at ridiculous prices for this sale, then you'll form some idea of the kind of sale we've planned. There has been no mincing matters whatever. That's evident to you in the story that follows. You'll buy garments here to-day at prices you would scarcely dream of paying.

Every suit, coat and skirt in the lot has been taken out of our own regular stock, a stock that has no peer in this section of Pennsylvania, garments that have made the Wright-Metzler Store the fashion headquarters of Connellsville. We have cut the prices radically, our idea being solely to effect an absolute clearance of all winter stock.

Here's the way we've priced the tailored suits:

\$15.00 Suits.....	\$ 7.50	30.00 Suits.....	19.00
20.00 Suits.....	10.00	35.00 Suits.....	22.00
22.50 Suits.....	11.25	40.00 Suits.....	26.98
25.00 Suits.....	15.00	50.00 Suits.....	35.00
27.50 Suits.....	18.00		

Any Man's Suit or Overcoat in the House for \$15.00.

This is the statement that filled our Men's Ready to Wear Department Thursday, Friday and Saturday of last week, and that's the statement carried out to the letter that will keep this department busy until the sale ends Saturday night, Jan. 19th. It forms a buying opportunity unparalleled, for it means Wright-Metzler Co.'s superb stock of clothing and overcoats up to \$30.00 value at \$15.00. There's still another offer with fully as much buying incentive attached, and that is

At \$10.00 we will sell any suit or overcoat for men that was formerly priced from \$12.00 to \$17.50. This offer is attracting hundreds of men, for it means absolutely all wool garments superbly tailored and dependable in every way at the lowest price ever quoted on like merchandise.

Dividing our immense stock into two price groups that includes every suit and overcoat in the establishment entails a loss, but we absolutely will not carry any part of merchandise from one season to another, and the open winter we have had forced us to radical action. We will have clean stocks next season at no matter what cost. The monetary loss we sustain now is an asset in the stock of the coming season.

Every suit and overcoat we sell you we guarantee to be correct in every detail of construction, style and fabric.

These Two Reasons, radical price concessions and garments that are superlatively correct, will insure a complete clearance of our entire collection of ready tailored suits and overcoats for men.

Eight Remarkable Offerings in Our China Store.

Women are always more or less interested in this manner of wares, and this sale offers ample opportunity to satisfy any desire to replenish the china closet at goodly savings. We've only room to quote eight of the many striking values offered.

At \$10.00 we offer a hundred piece Dinner Set, beautifully decorated with floral designs, and finished with gold line. This is a \$15.00 value.

Haviland Salads, (that were \$1.65 to \$2.00, are now \$1.50).
Carlsbad Salads, were \$1.50 and \$1.25, are now 75c.
35c Dinner Plates, decorated, 25c.

AT \$6.98, 12-piece Toilet Set, in all-over tint decoration, or with floral design on white ground, formerly priced at \$13.00.

25c Fruit Plates at 15c.
15c Bread and Butter Plates at 10c.
Rambles and Plates, that were \$3 per dozen, are now \$2.45.
